INDEX OF AUTHORS AND SUBJECTS • VOLUME 22

Index of Issues: January–February, pp. 1–162; March–April, pp. 163–338; May–June, pp. 339–518; July–August, pp. 519–656; September–October, pp. 657–872; November–December, pp. 873–1032.

Author entries for original articles include the title of the articles and co-authors under the first author; reference is made from the joint authors.

Subject entries for all material in the JOURNAL (except **Briefs from the Literature**) appear in this index. The page number in **bold face** indicates an original article, and the name of the author, in brackets, follows the subject entry. Entries from the JOURNAL departments are followed by the department in which the subject matter appears, i.e., Editorial, Current Comment and Abstract. Book NOTICES and BOOK REVIEWS are listed only under these headings.

- Acid-Base Balance**
spontaneous readjustments in, at termination of prolonged hyperventilation [abstract], 130
- Acidosis**
hypercapnic, effects of THAM, mannitol and urea on intracranial hypertension of [abstract], 134
respiratory, cause "cyclopropane hypertension"? [Li & Etsten], 49
respiratory, in adrenalectomized dogs, norepinephrine release during [Millar & Morris], 62
- Adrenals**
apneic oxygenation in adrenalectomized dogs [Millar & Morris], 433
medullary blockade, effect on blood pressure response to ephedrine [abstract], 139
norepinephrine release during respiratory acidosis in adrenalectomized dogs [Millar & Morris], 62
- ADRIANI, J., The Section of Anesthesiology of the American Medical Association (editorial), 488
- , see SUMMERS, F. W., jt. auth.
- Airway**
nasopharyngeal, design for [current comment], 498
upper, patency, influence of head-jaw position on [Morikawa & others], 265
upper, problems in resuscitation, studies of pharyngeal x-rays and performance by laymen [Ruben & others], 271
use and abuse of suctioning [current comment], 850
- ALDINGER, E. E., see MAHAFFEY, J. E., jt. auth.
- ALEV, F., see PITTINGER C., jt. auth.
- ALTSTATT, A. H., see McALEAVY, J. C., jt. auth.
- Alveolus**
gas composition, effect of variations in lung volume and, on rate of fall of oxygen saturation during apnea [abstract], 128
- American Medical Association**
Section on Anesthesiology [editorial], 488
- 2-Amino-2-Hydroxymethyl-1,3-Propanediol:
see THAM
- Amniotic Fluid**
embolism (review) [Shnider & Moya], 108
- Analgesia:** see Pain, relief
- Analgesics:** see under Pain, relief; Narcotics; names of specific compounds
- Anesthesia:** see also under names of specific agents and procedures
agents (volatile), new vaporizer for [current comment], 1014
art of preparing patient for [Rodger], 548
central nervous system effects of hyperventilation during [abstract], 128
chloroform, electroencephalogram during [Thomas & others], 542
closed circuit, concentrations of halothane, ether and cyclopropane in inspired atmospheres during [Fabian & others], 459; [correction], 1021
closed circuit, utilizing known increments of halothane [Hampton & Flickinger], 413
drugs used in, placental transfer of (review) [Marx], 294
effect of P₅₀₅ on depth of [McAleavy & others], 260
emergencies, synoptic interpretation of ECG and EEG in [Leonhardt], 918
epidural, identification of epidural space (case report) [current comment], 125
inert gases, interactions with proteins [Featherstone & others], 977
inhalation, role of preanesthetic medication in modifying hypersynchronous electrical waves in rhinencephalic structures induced with [abstract], 133
intravenous emulsions, use in animals and man [current comment], 491
intravenous, technical problems of studying [Egbert & Mitchell], 186
lactate, pyruvate and excess lactate production in [Greene], 404
and levels of consciousness [editorial], 315
management for cardiopulmonary bypass in community hospital [Pierce & others], 444
methoxyflurane, effect of epinephrine on dog heart during [Bamforth & others], 169
monitoring during [current comment], 643
nonflammable agents, fire with (case report) [current comment], 498

- obstetrical, cerebrospinal fluid pressures during labor and [Marx & others], 348
- postanesthetic complications, atelectasis, pneumothorax, and aspiration as (review) [Hamilton], 708
- postanesthetic complications, cardiac arrhythmias (review) [Buckley & Jackson], 723
- postanesthetic complications, changes in electrolyte balance (review) [McMurrey & Law], 819
- postanesthetic complications, embolic phenomena (review) [Patrick & Devloo], 751
- postanesthetic complications, failure of the peripheral vascular circulation (review) [Sugioka & Grosskreutz], 759
- postanesthetic complications, failure to regain consciousness after general (review) [Haugen], 657
- postanesthetic complications, inadequate ventilation (review) [Dam & Guldman], 699
- postanesthetic complications, incidence and etiology of excitement (review) [Eckenhoff & others], 667
- postanesthetic complications, nausea and vomiting (review) [Belleville], 773
- postanesthetic complications, neurological sequelae of spinal (review) [Greene], 682
- postanesthetic complications, reactions during transfusions and infusions (review) [Seldon], 810
- postanesthetic complications, related to body positions during surgery (review) [Lincoln & Sawyer], 800
- postanesthetic complications, renal (review) [Boba & Landmesser], 781
- postanesthetic complications, sudden cardiac collapse (review) [Martin], 738
- postanesthetic complications, temperature changes (review) [Stephen], 795
- postanesthetic emesis, control with trimethopbenzamide [current comment], 492
- practice, tubular and peripheral vision in [editorial], 1008
- preanesthetic visit [editorial], 486
- pressure breathing, "lost gas" in [abstract], 141
- recovery, operant behavior during, continuous and objective method [Lindsley & others], 937
- respiratory effects of resistance to breathing in [Nunn & Ezi-Ashi], 174
- respiratory threshold for carbon dioxide in [Hanks & others], 393
- spinal [current comment], 126
- spinal, pulmonary function during, mechanism of cough depression [Egbert & others], 882
- spinal: see also Spinal Hemianalgesia and sweating, causes and effects [Linton], 56
- system, inexpensive, for administration of ether [current comment], 323
- systems, low flow, halothane in [current comment], 324
- systems, respiratory water loss via, mask breathing [Chase & others], 205
- ventilator techniques for neurosurgery [abstract], 143
- Anesthesiologist**
- hallmarks of maturity [editorial], 830
- responsibilities in tracheostomy [Crawford], 86
- responsibility for breathing [editorial], 615
- service through self-sacrifice [editorial], 615
- and use and care of laboratory animals [editorial], 832
- Anesthesiology**
- monitors and clinical judgment [editorial], 120
- New China's achievements in (abstract) [current comment], 855
- research, gas chromatography, analytical method for [Summers & Adriani], 100
- Section on, American Medical Association [editorial], 488
- Wood Library-Museum [Betcher & others], 618
- ANESTHESIOLOGY, Journal**
- profile of an audience [Sweigert & others], 834
- Anesthetics: see under Anesthesia; names of specific agents and drugs
- Angiotensin**
- vasopressor, evaluation [abstract], 146
- Antagonists**
- narcotic, and narcotic mixtures (review) [Telford & Keats], 465
- Antihistamines**
- therapy for postintubation subglottic edema in infants and children [Deming & Oech], 938
- Aorta**
- resection of, coarction under halothane anesthesia, increased incidence of paradoxical hypertension following [abstract], 132
- Apnea**
- apneic oxygenation in adrenalectomized dogs [Millar & Morris], 433
- effect of variations in lung volume and alveolar gas composition on rate of fall of oxygen saturation during [abstract], 128
- effect on arterial oxygen saturation [Downes & others], 29
- rate of rise of P_{ACO_2} in apneic anesthetized patient [Eger & Severinghaus], 419
- Apparatus and Instruments**
- adaptation of ventimeter [current comment], 123
- alarm device for respirators [current comment], 640
- assessment of Revell circulator [Roffey & others], 583
- auxiliary blood pump unit [current comment], 843
- cardiac arrest board [current comment], 1018
- cardiovascular monitor [current comment], 123
- chin holder [current comment], 642
- closed circuit anesthesia utilizing known increments of halothane [Hampton & Flickinger], 413
- design for nasopharyngeal airway [current comment], 498

- device for artificial respiration [current comment], 495
- epidural needle [current comment], 1018
- expedient for leaking cuff [current comment], 643
- for administration of halothane [current comment], 1017
- inexpensive system for administration of ether [current comment], 323
- modification of Crowe-Davis mouth gag [current comment], 494
- modified endotracheal catheter [current comment], 642
- modified laryngoscope blade [current comment], 846
- new ether hook [current comment], 322
- "pop-off" valve [current comment], 848
- positive pressure respirator [current comment], 121
- radiation protection [current comment], 1019
- simple esophageal stethoscope [current comment], 642
- syringe with self-retaining plunger [current comment], 319
- universal breathing tube support [current comment], 844
- vaporizer for volatile agents [current comment], 1014
- vinyl tubing [current comment], 849
- Aramine: see Metaraminol
- Arrhythmias: see also Heart; Ventricular Tachycardia
- cardiac, sympathomimetic amines and methylxanthines inducing [Ueda & others], 926
- postoperative (review) [Buckley & Jackson], 723
- ventricular, prevention and correction of, by dichloroisoproterenol in dogs anesthetized with cyclopropane [Schull & others], 444
- Artificial Respiration: see Resuscitation
- Asepsis: see Sterilization
- Aspiration
